LIFTMASTER® INTERNET GATEWAY

Simple Control From Anywhere

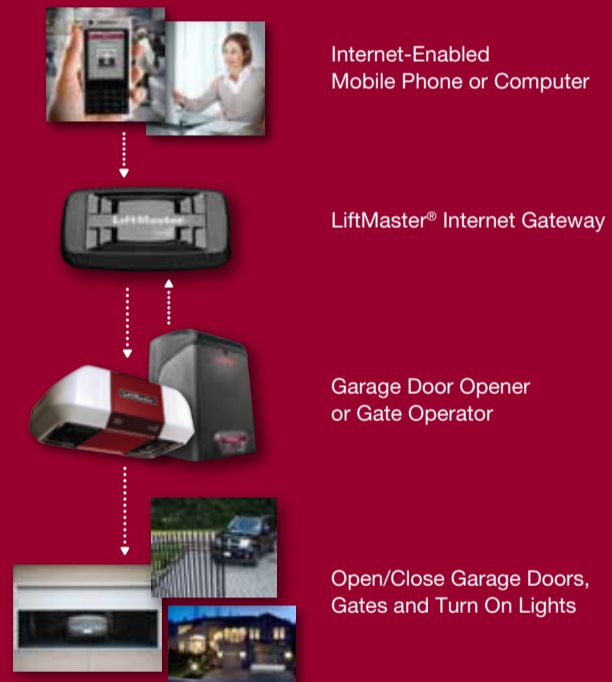

Just imagine being on vacation and having the ability to open your garage door for your neighbor so they get in your house to water the plants and feed the cat. Or being able to check and make sure you closed it after leaving for your business trip overseas. Or even having the ability to turn some house lights on when you're on your way home, just so you don't come home to a dark house. You can if you have the LiftMaster® Internet Gateway accessory and on of our two new garage door openers - Elite Series® model 8550 and Premium Series model 8360 with Battery Backup, or our Elite Series® gate operator models CSW24V, CSL24V or LA500.

Performance Features

- Uses MyQ™ technology to monitor and operate the garage door opener, gate operator, lighting and other compatible devices from anywhere via an Internet enabled mobile phone or computer
- Custom Apps for PC, mobile web and smart phones provide full user interface & control
- Connects to a broadband modem or home router; Internet service is required
- 110 volt power supply
- \$14.95 Annual Activation Fee Required

How it Works

828LM LiftMaster® Internet Gateway works with models 8550, 8360, CSW24V, CSL24V, and LA500 - Models 8550 and CSW24V shown.

Control Your Garage Door, Gate Operator and House Lights From Anywhere with Liftmaster® MyQ™ Technology

Forget to close your door?

Need to let the service repair man in?

Vacation?

From the office?

At LiftMaster®, safety is a major part of our mission.

It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.
